REMARKS

The above-referenced patent application has been reviewed in light of the Office Action, dated December 15, 2006, in which the Examiner issued a restriction requirement, alleging that two patentably distinct inventions are claimed. Assignee takes no position on the appropriateness of the restriction requirement but, in order to expedite prosecution, elects Group 1, including claims 1-12, without prejudice. Assignee reserves the right to pursue the subject matter of claims 13-17 in a divisional application.
